Keno Multiplier as used with Optima Keno System V1.2  
Suggested Trial Procedures

Keno Multiplier

1. Using the Exceptions Report compare by game, the multiplier (X) and the position and ball number chosen (pos=#, ball=#) to the Keno Transactions report.
2. Using the Keno Transactions report, ensure that the ball drawn and the multiplier (X) chosen for each game agrees with the Multiplier Configuration report.
3. On a sample basis, regrade 5% of the winning tickets that include a multiplier bet.
