CPA MICS Compliance Checklist

**INTERNAL AUDIT**

Licensee \_\_\_\_\_ Review Period \_\_\_\_\_

NGC Regulation 6.090(9) requires the CPA to use "criteria established by the chairman" in determining whether a Group I licensee is in compliance with the Minimum Internal Control Standards (MICS). This checklist is to be used by the CPA in determining whether the licensee's internal audit process satisfies the Guidelines of the Internal Audit Compliance Reporting Requirements in determining compliance with the MICS.

Date of Inquiry	Person Interviewed	Position

Indicate the person(s) performing the Internal Audit function for the period under review: \_\_\_\_\_

Checklist Completion Notes:

- 1) Unless otherwise instructed, examine a completed document for compliance for those questions referring to records/documentation as indicated and recalculate where appropriate. Indicate (by tickmark) whether the procedures were confirmed via examination/review of documentation, through inquiry of licensee personnel or via observation of procedures. Tickmarks used are to be defined at the bottom of each page.
- 2) All "no" answers require referencing and/or comment, and should be cited as regulation violations, unless the Board's Audit Division has granted written approval to waive the performance of internal audit procedures pursuant to the Internal Audit Guidelines, or the question requires a "no" answer for acceptability.
- 3) "(#)" refers to the page number of the Internal Audit Guidelines addressing the requirement.
- 4) Prior to completing this checklist, determine whether any requirements have been waived in accordance with the Internal Audit Guidelines pursuant to Regulation 6.090(15).

Miscellaneous Items from the Guidelines for the Internal Audit Checklists (paraphrased from the guidelines)

- 1) For new licensees, or for licensees that have surrendered their gaming license, that were in operation for three months or less by the end of their business year, performance of these internal audit procedures is not required for the partial period.
- 2) The checklists used by the internal auditors must be identical to those originally issued by the Board. Photocopies may be used. If their checklists are generated from the Board's electronic files, the format must not be altered (a change from portrait to landscape is not considered a change in format). When modifying checklists due to regulatory changes or the additions of explanatory notes, the acceptable method is to note the change following the question/procedure. Although copies of the checklists are expected to be provided, the Board may grant approval for other formats.
