Re: CG Technology Proposed Amendments to Regulation 22.147(5)(g) and
26C.180(5)(g)

Dear Chairman Burnett and Members of the Board:

The Pac-12 Conference supports the adoption of CG Technology's proposed amendments to Nevada Gaming Commission Regulations 22.147(5)(g) and 26C.180(5)(g) (the "Amendments"), which are under consideration by the Nevada Gaming Commission ("Commission") and the Nevada Gaming Control Board (the "Board").

We value the tripartite working relationship among the Board, CG Analytics and CG Technology and ourselves. CG Analytics' fraud prevention and consultative services are key tools that support preserving and protecting the integrity of our sports and sports competitions. The Amendments would permit greater collaboration between the Board, the Pac-12 and CG Analytics and CG Technology and we, therefore, extend our support for CG Technology and the Amendments.

On behalf of Pac-12, we ask the Board to endorse the Amendments and look forward to the Board conducting industry workshops on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Larry Scott'.
