NGC Regulation 6.090(9) requires the CPA to use “criteria established by the chairman” in determining whether a Group I licensee is in compliance with the Minimum Internal Control Standards (MICS). This checklist is to be used by the CPA in determining whether the licensee’s pari-mutuel operations are in compliance with the Pari-Mutuel MICS.

Date of Inquiry	Person Interviewed	Position

Checklist Completion Notes:

- 1) Unless otherwise instructed, examine a completed document for compliance for those questions referring to records/documentation as indicated and recalculate where appropriate. Indicate (by tickmark) whether the procedures were confirmed via examination/review of documentation, through inquiry of licensee personnel or via observation of procedures. Tickmarks used are to be defined at the bottom of each page.
- 2) All "no" answers require referencing and/or comment, and should be cited as regulation violations, unless adequate alternative procedures exist (i.e., approval of alternative procedure granted by the Board Chairman, including computerized applications) or the question requires a “no” answer for acceptability. All “N/A” answers require referencing and/or comment, as to the reason the MICS is not applicable.
- 3) "(#)" refers to the Minimum Internal Control Standards for Pari-Mutuel, Version 8.

Minimum Internal Control Standard Notes

- Note 1: The term “betting kiosk” as used in these MICS refers to a “self-activated machine” that patrons use to place wagers and is considered a writer/cashier station. MICS applicable to writers/cashiers (or writer/cashier stations) are also applicable to a betting kiosk unless otherwise stated within the MICS.
- Note 2: The term “voucher” as used in these MICS refers to a printed wagering instrument, usually issued for use in a betting kiosk, with a fixed dollar wagering value and is redeemable for cash or cash equivalents. Unredeemed vouchers that were issued as payment for winning wagers are treated the same as unpaid winning wagers for revenue purposes (i.e., purged vouchers are included in gross revenue).
- Note 3: A pari-mutuel book must also comply with the Race and Sports MICS when not in conflict with, and if applicable to, the pari-mutuel operation.
- Note 4: The term “operator of a call center” as used in these MICS has the same meaning as in Regulation 26C.
- Note 5: The term “hub” as used in these MICS refers to the Nevada pari-mutuel systems operator used by pari-mutuel race books for commingling wagers with race tracks.
- Note 6: These MICS apply to satellite and outstation books (as defined in Regulation 22) unless otherwise stated within the MICS.
- Note 7: For any Board-authorized computer applications, alternate documentation and/or procedures which provide at least the level of control described by these MICS as determined by the Audit Division will be acceptable, and a MICS variation pursuant to Regulation 6.090 will be unnecessary.
- Note 8: These MICS apply to any Board-authorized inter-casino linked system. However, the operator of the inter-casino linked system and the licensee may share the responsibility for compliance, with some procedures performed by the licensee and other procedures performed by the operator of the inter-casino linked system. The procedures which the operator of the inter-casino linked system will perform are to be delineated as such within the pari-mutuel section of the written system of internal control pursuant to Regulation 6.090.

- Note 9: A “signature” on a document provides evidence of the person’s involvement and/or authorization of the intentions reflected in this document. It is typically in the form of a stylized script associated with a person. The stylized script “signature” may include the first letter of the person’s first name along with the person’s full last name. The “initials” of the person would not meet the requirement for a “signature”.
- Note 10: As used in these MICS, the term “WAT” means wagering account transfer. “WAT in” means amounts wagered by the patron and/or transfers to a game/gaming device pursuant to Regulation 5.225(12) and “WAT out” means amounts won by the patron and/or transfers from a game/gaming device pursuant to Regulation 5.225(11).
- Note 11: If a pari-mutuel book utilizes wagering accounts and is the designated area of accountability, compliance with cage and credit MICS for wagering accounts is required. Such procedures are delineated within the written system of internal control pursuant to Regulation 6.090.
- Note 12: For Board approved computerized systems that are used solely for pari-mutuel race and sports wagering accounts, compliance with pari-mutuel race and sports MICS #21(m) and #22 for wagering account reports may be used in lieu of the reports required by cage and credit MICS #47 - #49. However, compliance with cage and credit MICS #34 - #44 is required.
- Note 13: If a pari-mutuel book utilizes wagering accounts, the written system of internal control pursuant to Regulation 6.090 must delineate procedures describing how WAT in and WAT out transactions (including the handling of canceled events) in the wagering account system are integrated and recorded by the pari-mutuel system.
