

## PROPOSED NEW REGULATION 5.190

**PURPOSE OF REGULATION:** To establish a definition for “aggregate payout limits”; to establish rules that apply to and thereby regulate the use of aggregate payout limits on payouts on winning wagers for games as defined within NRS 463.0152 as well as on a separate bonus feature requiring a separate wager made in conjunction with or in association with the game; to establish that aggregate payout limits may not be combined for different types of wagers; to establish that each separate aggregate payout limit established for the game or bonus feature may not be an amount which is less than the highest award with the minimum wager required to play the game or bonus feature; to establish that all aggregate payout limits must be prominently displayed on the table layout or on a sign placed on the table, which is unobstructed and clearly visible from all player positions, using such language as may be approved by the chairman of the board or his designee; to establish that this regulation shall not apply to bingo or keno, and that aggregate payout limits may not be imposed upon payouts from slot machines, race books, sports pools or any game where the highest payoff odds on a winning wager are less than 50 to 1, unless otherwise allowed by regulations of the commission; to establish that the chairman may waive one or more provisions of this regulation; to take such additional action as may be necessary and proper to effectuate these stated purposes.

### OPERATION OF GAMING ESTABLISHMENTS

(Draft: 12/19/00)

#### 5.190 Aggregate payout limits for gambling games.

1. As used within this regulation, “aggregate payout limit” means a maximum payoff amount that will be paid by a licensee to two or more patrons as the result of winning wagers resulting from any single call of the game or hand of play.
2. Except as otherwise provided herein, a licensee may establish an aggregate payout limit on any game as defined within NRS 463.0152, as well as on a separate bonus feature requiring a separate wager made in conjunction with or in association with the game. Aggregate payout limits may not be combined for different types of wagers.
3. Each separate aggregate payout limit established for the game or bonus feature may not be an amount which is less than the highest award with the minimum wager required to play the game or bonus feature.
4. All aggregate payout limits must be prominently displayed on the table layout or on a sign placed on the table, which is unobstructed and clearly visible from all player positions, using language approved by the chairman of the board or his designee.
5. Aggregate payout limits may not be imposed upon payouts from slot machines, race books, sports pools or any game where the highest payoff odds on a winning wager are less than 50 to 1, unless otherwise allowed by regulations of the commission. This section does not apply to bingo or keno.
6. The chairman of the board may, in his sole and absolute discretion, waive one or more of the provisions of this section, subject to such conditions as the chairman may impose.

(Effective: 05/01/01)
