**TO: ALL LICENSED MANUFACTURERS AND INTERESTED PERSONS**

**SUBJECT: TECHNICAL STANDARD 1.090 BONUS OR EXTENDED FEATURES POLICY FOR COMMUNITY BASED BONUS AND EXTENDED FEATURES**

The Gaming Control Board Technology Division has adopted a new policy that expands Technical Standard 1.090 to include community based bonuses and extended features.

All gaming devices which offer a bonus game or extended feature which requires player selection or interaction are prohibited from automatically making selections or initiating games or features unless the bonus or extended feature is offered as part of community play that involves two or more patrons and where the delay of an offered selection or game initiation will directly impact the ability for other patrons to continue their bonus or extended feature. Prior to automatically making selections or initiating a community based bonus or feature the patron must be made aware of the time remaining in which they must make their selection or initiate play. When applicable, the auto-selection process must utilize an optimum strategy to make the selection.

Please contact Lab Manager Jim Barbee in the Technology Division at (702) 486-2240 with any questions regarding this matter.

Sincerely,

Mark A. Lipparelli  
Board Member
