Gaming Industry Resources for Informing Workforce about COVID-19 Vaccine Efficacy and Safety

Notice # 2021-10

Issuing Division: Administration

DATE: January 28, 2021
TO: All Nonrestricted Licensees and Interested Persons
FROM: J. Brin Gibson, Chairman
SUBJECT: COVID-19 Vaccination Information

In response to many licensees requesting information that may be useful in educating their hospitality workforce regarding the Pfizer and Moderna COVID-19 vaccines' safety profile, the Nevada Gaming Control Board is providing these resources, each from reputable, respected primary sources, with the goal of providing members of the gaming workforce with the best possible information from which they can make well-informed decisions.

At the licensee's discretion, these resources can be made available to employees, in languages most clearly understood. Licensees may also consider providing opportunities for staff to ask questions (without identifying the questioner, if possible) about vaccine safety and effectiveness and to have medically trained personnel provide answers on an employee message board, or through other media widely viewed by staff.
