

D2025-0029 Bonus Spin Xtreme for Poker Cash Rules of Play

INTRODUCTION

Bonus Spin Xtreme -Poker Cash is a fixed-amount progressive wager, which may be optional or mandatory, that can be configured for card games using a standard 52-card deck. The amount of the wager covered in this report may be \$1, \$2, or \$5. The player may place the Bonus Spin Xtreme wager at the beginning of the game. The game is then played as normally. The wager is resolved when a qualifying trigger event occurs.

RULES OF PLAY

Three specific cards will be designated as trigger cards. For example, the Flop cards in a Hold'em variant. The designated cards are used to form a three-card Poker hand. If the designated cards form a Straight (including Straight and Royal Flushes) or a Three of a Kind, the wager wins, and the bonus spin is triggered. Otherwise, the wager loses. A "wheel straight" consisting of an Ace, a Two, and a Three will qualify as a trigger. A fixed bonus pay may also be awarded depending on the amount of the wager and the triggering event.

Bonus Spin Xtreme uses three wheels, the Hot Spot Wheel, the Community Prize Wheel and the Hot Spot Prize Wheel. The Hot Spot Wheel uses an electronic RNG to choose one of the player positions uniformly at random. Note that the Hot Spot Wheel will always choose between the complete range of player positions, even if some positions do not have players seated. If the player is seated at the chosen position, they will receive an enhanced award chosen by the Hot Spot Prize Wheel. Otherwise, they will receive the award chosen by the Community Prize Wheel. Both prize wheels follow a configured weighted distribution of prizes. For this game, Bonus Spin Xtreme may be configured for 8, 9, or 10 player positions.
