

**Golden Bacc**  
**Rules of Play**

Golden Bacc is comprised of interchangeable side bets that can be played on any Baccarat game including commission, no-commission and Nepal Baccarat. The side wagers consist of Golden Bacc, Treasure of the 5 Dragons, Infinite Fortune, Banker or Player Pair, Phoenix Bonus and Bad Beat. These side bets can be played using 6 or 8 decks of cards. It is left up to the individual casino whether a base wager of Banker or Player is required or not to play the side bets.

The rules and paytables are as follows:

**Golden Bacc:**

Players wager on one (1) or more outcomes. The different wagers are:

- Player or Banker win with a 3-Card 9 over 3-Card 7 – If a hand has a total of nine (9) and is comprised of three (3) cards wins over a hand with a total of seven (7) and is comprised of three (3) cards, the wager is paid at odds of 200 to 1. All other outcomes lose.
- Player or Banker win with a Natural 9 over 7 – If a hand has a total of nine (9) and is comprised of two (2) cards wins over a hand with a total of seven (7), the wager is paid at odds of 50 to one (1). All other outcomes lose.
- Player or Banker win Any 8 over Any 6 – If a hand has a total of eight (8) it wins over a hand of a total of six (6), the wager is paid at odds of 25 to 1. All other outcomes lose.
- Player or Banker wins with a 3-Card 9 over 3-Card 1– If a hand has a total of nine (9) and is comprised of three (3) cards wins over a hand with a total of one (1) and is comprised of three (3) cards, the wager is paid at odds of 150 to 1. All other outcomes lose.
- Super 7 (3-Card Banker win on 7) – If the Banker hand has a total of seven (7) comprised of three (3) cards over any lower Player hand total, the wager is paid at odds 40 to 1. All other outcomes lose.
- Fortune 8 (3-Card Player win 8) – If the Player hand has a total of eight (8) comprised of three (3) cards wins over any lower Banker hand total, the wager is paid 25 to 1. All other outcomes lose.
