Game Description

Heads Up Hold'em Progressive wager is an optional side bet for Heads Up Hold'em poker game. Additionally, the Heads Up Hold'em Progressive side wager can be configured with a Dynamic Progressive as described below.

Rules of Play - Dynamic Progressive – Dynamic Pays

Players win if their best 5-card hand (using the player's two pocket cards and the five community cards), achieves a winning event as shown on the corresponding paytables shown below. For paytables PT-PRG-HUH-D01 and PT-PRG-HUH-D02 each round, one to three of the four fixed-pay hands will be randomly selected to be dynamically adjusted to an amount higher than the original/default pay. The number of hands with dynamic pays is chosen uniformly at random from one to three. For payable PT-PRG-HUH-D03, each round, one to four of the five fixed-pay hands will be randomly selected to be dynamically adjusted to an amount higher than the original/default pay. The number of hands with dynamic pays is chosen uniformly at random from one to four. Then, fixed-pay hands are chosen uniformly at random without replacement from the four or five, respectively. Each selected fixed-pay hand has 10 Dynamic Pays that are randomly selected in place of the original/default pay for that round. Each of the 10 Dynamic pays, per hand, has an equal chance of being selected. After each round, all Dynamic Pays are reset to the original amount until the process is repeated.
