Attn: Regulation Comments

Regarding the proposed amendments to regulation 5.225, specifically 18: Responsible Gambling, there exists numerous methods of providing players responsible gaming options which have been implemented worldwide in multiple jurisdictions and are already available or in-use in Nevada. Therefore, the proposed language is too specific and should be broadened. The edits to the proposed language below broaden the specific requirements while complying with the ability for patrons to select responsible gaming options pertaining to their wagering accounts.

(a) Licensees shall ensure that its patrons have the ability to select responsible gambling options associated with their wagering account. ~~that include deposit limits establishing the amount of total deposits a patron can make to their wagering account within a specified period of time.~~

Sincerely,

Tom Soukup
Chief Product Officer, Systems
