**RE: Aristocrat Technical Compliance comments regarding modernization of the Nevada Gaming Technology approval process**

Dear Executive Secretary,

In response to public notice #2023-15 on March 1, Aristocrat Technical Compliance would like to submit a written comment for an expansion of 14.080(2) to include Associated Equipment.

As currently described in the regulation, the New Innovation Beta process is for new Gaming Devices only. Aristocrat would ask that the New Innovation Beta process be expanded to allow application of this process to other kinds of submissions, including Associated Equipment.

Regards,

A handwritten signature in cursive script that reads "Mark Hanks".
